

Pertinent Paragraphs

Seems to have been a little confusion or misunderstanding in the past regarding how to get in touch with John A. Hill at Hill's Jewelry. To clarify matters, Mr. Hill explains it in this manner for the benefit of those wishing to contact him. Upon entering the jewelry store, walk straight ahead towards the rear of the store as far as possible. You'll run right into the repair counter where Mr. Hill may be seen most of the time. Simple, isn't it? The confusion comes in in case you should turn to the right before reaching the repair counter, in which case you'd run right into the silver room. Or, should you by-pass the repair counter you might go straight to the trophy room.

For those in whose minds there might still be some confusion on the sewer assessments, here is the straight dope from an authoritative source:

Assessments of less than \$25.00 must be paid in full, or will bear penalty interest of 1% per month.

Assessments of \$25.00 or more, may be paid in full by February 10, or they will go to bond and 6% interest will be payable by July 2 each year, and 10% of principal will be payable January 2 of each year, in addition to the half year interest.

Bonds can be paid at any time by paying interest to end of the half year ahead of paying date.

These assessments are not on your regular tax bill, but are billed separately, and if not paid when due, are subject to foreclosure — be sure and get your bill before July 1 and January 1 each year.

To a good subscriber down in Fort Worth, Texas, who hints of lolling around in the sunshine in his back yard — aren't you afraid of frostbite, Jay? On the days you speak of, Associated Press says snow there!

And that's not the only kidding we're getting. A northern California newspaper we get carries a headline "Southern California, Phooey," and proceeds to tell of someone going to Los Angeles to seek warmer weather only to run into snow. Of course the headline writer doesn't realize that Los Angeles is in southern central California — and no snow has been seen on the ground in Lemon Grove — yet. In fact there's nothing wrong with the cold spell here that a couple of 12 inch pipelines direct to the Texas gas fields wouldn't take care of.

If you don't read the United States News, a recent article in said publication might interest you. It states that plans are ready in Washington for immediate use in case of sudden attack and the subsequent outbreak of war. They include (a) In the next war, the entire working force will be put under federal control, with workers shifted to war plants or armed services as needed. (b) Wages and prices will be frozen, with any changes subject to approval of a war agency.

(c) Manufacturers will be told what they can make, how much and how to make it. (d) Strikers will be promptly jailed.

(e) Taxes will be immediately raised, and legal profits will be set by law. (f) Food and consumer goods will be strictly rationed.

ACCIDENT FATAL TO MAN WORKING ON VALLEY HOME

Paul O. Bradley, of Orange Ave., San Diego, was killed at 2:30 P. M. Wednesday, January 25, as the result of a freak accident.

He, with two friends, Henry Lea, and Jerry S. West of La Mesa, were removing a concrete retaining wall on Mr. Bradley's house in Casa de Oro, which is rented by Mr. Lea. Paul was using a piece of four-by-four as a pry, when the wall collapsed. A section of concrete struck the pry and rebounded onto the head of Bradley, causing a severe fracture that resulted in death, according to Coroner Gallagher.

Sheriff Willard A. Rigley was on hand to investigate, and to call an ambulance. Bradley was declared to be dead on arrival at a La Mesa hospital.

Mrs. Bradley is employed at a North Park department store.

Action Nears on New Community Center Building

Lemon Grove residents representing many local organizations gathered at the Randolph Morse home on Golden Avenue, Tuesday evening to discuss arrangements for the new Community Center.

Mr. and Mrs. Vincennes, Mr. Parks and Mr. Barney of the county office came out from San Diego to advise the group.

Mr. Barney submitted tentative plans for a building 19x39 ft. in size. A wish was expressed for a larger building, so the county representatives will enlarge the plans to a 40x40 ft. size and compile an estimate of man-hours needed for carpenters, electricians, etc.

Mr. Charles Whitlock announced that he could promise a lot of volunteer labor from several craftsmen, and union permission for them to participate and an attractive site has been promised by Mr. A. F. Sonka.

Mr. C. F. Baxter offered to donate labor on all sheet metals required and to furnish materials at cost.

A letter was read from Mrs. Charles Brown authorizing the P.T.A. to use lumber the Browns had donated when they lived in Lemon Grove, for the Community Center.

The county will invest about \$8,000.00 in the building. Maintenance will be furnished by the County Parks Department, and Goodland Acres in Spring Valley, Eucalyptus Park, and the new Community Center, will probably all be maintained by one caretaker.

The county officials affirmed that Lemon Grove had taken all necessary steps and the building might be started soon.

Among those attending were Mrs. Ted Haaf, Mrs. A. P. Schnell, Mrs. S. R. Close, Mrs. Genevieve Porter, Mrs. Kenneth Vaughn, Mrs. L. F. Herder, Mrs. Gilbert Durham, Mr. and Mrs. C. F. Baxter, Mr. and Mrs. Charles Whitlock, Chris Ferguson, Jackson Ammons and John Mallow.

LET'S DISCUSS IT

by Mrs. Agnes Whitlock

Meet Mr. and Mrs. A. G. Tsongas, formerly of Rochester, N. Y. They, with their son, George, 11; and daughters, Mary, 10; Theodore, 8; and Katherine, 6; live at 1661 Colfax Drive, in Monterey Heights.

They moved to California about three years ago, when Mr. Tsongas was transferred to the San Diego Consolidated Plant. They like Lemon Grove very much, and with the exception of the present rain, they think the California climate is fine.

Mrs. Tsongas, (Bertha), likes her home city of Rochester very much so I'll let her tell you about it now.

"I lived in Rochester most of my life, but right at the moment, I can't think of very much to tell you about it. I guess I can start by saying that Rochester is called 'The City of Flowers,' and it really lives up to its name.

"There are approximately 2,000 acres in parks and playgrounds. Rochester is one of the largest nursery centers in the world, the handiwork of some of these nurserymen evident in the many parks.

"I lived near Highland Park, well known for its botanical gardens, which are among the finest in the country. The lilacs in the Spring attract thousands of visitors to the park. We used to enjoy the band concerts and the street dances too; then in the winter, we had tobogganing, of course.

"This one park consists of 108 acres. There are four other large parks and 12 small ones so you see there were plenty of places to go for a nice picnic.

"Rochester is one of the most important shoe and clothing manufacturing cities in the country. Some of the other things made there are cameras, photographic film and supplies, (Eastman Kodak Company,) dental apparatus, optical lenses and supplies, office equipment, electrical machinery,

Ernest Sunburys Move To Blossom Valley

Mr. and Mrs. Ernest Sunbury moved from their home on Waite Drive Saturday to Blossom Valley, which is located south of Flinn Springs. They purchased a ranch there from Mr. and Mrs. James C. Nichols. Mr. Sunbury will commute to the Lemon Grove Lumber Company each day.

Their son Carl will join them soon. At present he and Frank Smith are enjoying a vacation in Mexico City. They report the weather very balmy, and are enjoying picnics and other summer time recreation there.

Mr. and Mrs. Nichols and his mother, Mrs. Hattie Murphy, have leased the Sunbury home and will live there for a time before going east.

ENJOYED SNOW SPORTS

Roy Ahrensberg was one of a gay party of 12 who enjoyed snow sports at Descanso Sunday.

etc. The country surrounding is a very important agricultural district, too. The canning of food-stuffs constitutes another of the major industries.

"Rochester is about the size of San Diego, I think. I know it is spread out over a large area like San Diego. I guess that is the reason it doesn't look like a manufacturing city and you don't have so much of the soot and smoke, being spread out like it is. It is a very clean town; they are forever scrubbing the streets.

"There is an harbor in the city called Charlotte. It is the leading port on Lake Ontario, and is on the Barge Canal. There are two beautiful waterfalls within the city limits, the Lower and Upper falls of the Genesee River.

Seeing a ragman and his old horse and wagon wandering through the modern streets of this city is a quaint sight. Speaking of quaint sights, reminds me of something my husband didn't think could happen out here. We were returning home from a concert one night, in Rochester, and in the midst of a snowstorm, dressed in a tuxedo, he had to change a tire; now that couldn't happen here, could it?

"Concerts and operas are among the most popular forms of entertainment. Many of the concerts are held in the Eastman School of Music.

"Its school system is one of the best in the country. The University of Rochester rates fifth among the colleges of the United States in endowment funds.

"This may sound like I'm bragging about Rochester, and I am. I am very proud of my home city and I think it is one of the best. I also like Lemon Grove and I believe that in time, it will become a large and beautiful city, too."

Thank you, Mrs. Tsongas. I believe Lemon Grove has possibilities too. So do a lot of other people. Just look around and see all the new developments; homes, stores, etc. that have been built here in the last few years, and who knows, we may even have a snowstorm, someday.

"Seems to be working fine now, Mrs. Endicott."

RALPH PETTINGILL CALLED BY DEATH AT 75

Friends were shocked to learn of the sudden death of Ralph Pettingill of 2772 Massachusetts Avenue. He passed away suddenly while eating breakfast at his home Saturday morning.

LETTERS to the EDITOR

The following facts might have news value, or at least would give information to the public.

The people who get their mail at the Post Office in Lemon Grove, using only their box numbers as their address, do not have the privilege of special delivery letters delivered to their homes, but such letters must remain in said personal boxes until the owner gets around to collecting his mail.

If this be the case, how can the government collect this extra postage money, given in good faith and yet, another branch of that government refuse to make delivery on the grounds, quote, "the address is not given"? Since when has an address ever been given when the P. O. box number only is used.

This is a disadvantage we evidently have gained by becoming a larger community, because, heretofore, I have always had special delivery letters brought to my home safely, and quickly.

Sincerely,
Beatrice L. Morse.

FATHERS CONDUCT P.T.A. MEETING

The fathers conducted the P.T.A. meeting last Thursday evening in the school cafeteria.

Before turning the meeting over to the fathers, the P.T.A. voted to buy a set of encyclopedias for the junior high department of the school, as their project for the year.

Mr. J. G. Durham took the president's chair, C. L. Carmen acted as secretary, Eldon Goodall served as treasurer and John Mallow was program chairman.

A skit was presented first with all the officers, plus Byron Netzley, S. E. Solleder, T. S. Brent and J. M. Beyers taking part.

The men carried in huge sack lunches and proceeded to enact the parts of ladies in a board meeting. They screamed for coffee, and ate huge sandwiches. Byron Netzley gave them a lot of parliamentary law, and in the end they all resigned and went home. The consensus was that the men really did themselves proud.

Mr. Bill Gallagher presented a moving picture film on the "Great American Soap Box Derby." Sandwiches and coffee were served by the fifth grade fathers, under the leadership of A. V. Gerard.

LONDON FOGS EXPENSIVE

When London has a fog it costs money. The British fog bill is estimated at about \$320 million a year.

A fog costs the city of London about \$5,600,000 per day. Of this, transport holdups with their loss of fares and wages account for about \$1,800,000. Business delays cost another \$1,400,000. Extra light and heat to combat the cold and gloom take \$1,600,000 a day, and property damage adds up to about \$800,000. Fog bills for other big cities like Liverpool and Manchester are almost as steep.

CUB SCOUT NEWS

An evening of wonderful entertainment along with refreshments was enjoyed by the Pack 8 Cub Scouts of Lemon Grove last Friday night, January 21, 1949, at the First Congregational Church.

It was a full evening for all with the entertainment taking up the bigger part of the evening, followed by the awarding of various badges and the graduation exercises for two of the Cub Scouts. The two Cubs who graduated from Pack 8 and were received into Troop 8 by committeeman Mr. Wayne Hedge and patrol leader John Blake, were Bobby Simpson and Tommy Shaffer. Both these boys have worked hard and will be a great credit to Troop 8. We take this time to say, "Keep up the good work fellows, and best of luck to you in your career of scouting."

For entertainment we were honored to have the Allied Academies of Dance of La Mesa, directed by Mr. W. H. Curtis and his daughter Virginia Grillo. The performers received much

well deserved applause.

Miss Dolly Mae Wright led the entertainment with a tap dance number to the tune of "Rose Room." Other tap numbers were given by duo team Joyce Hurdle and Viola Key; solos, Gail Bigahn, Bonnie Winsby, Patsy Dowdy, Nancy Owen and Phyllis Straka. Also a specialty tap was given by a brothers-and-sister team, Richard, Donald and Sharon McKinney.

Two acrobatic numbers were beautifully given by Miss Phoebe Brunson and Miss Sharon McKinney. A Dutch ballet featuring little Sherry Lee Trenfil and tiny Kay Kalanquin was an outstanding number.

The pack was next treated to some real western music played by Burl Nystead and Riley Smith of Spring Valley. Little Margaret Smith also rendered a violin solo.

Den 7 scored a hit with the pack by having Henry Cook play a couple of numbers on his cornet.

The turn out for this pack meeting of both Cubs, and parents was a great success. How-

STUDY GROUP TO MEET MONDAY

The Theosophical Study Group of Lemon Grove will meet Monday evening at 8 o'clock in the home of Mr. and Mrs. William H. Lehman, 2660 Citronella Street.

"Human Mentality" is the subject chosen for study and discussion.

CAMP FIRE GIRL NEWS

A Blue Bird leaders meeting was held on Thursday, January 20, at the home of Mrs. E. Fernald, at which time the program for the next month was planned by those present who were Mrs. Lucia Lee, Mrs. Dorothy Everett, Mrs. R. C. Close, Mrs. Selenech, Mrs. Fauchit and Mrs. Brook.

The Lemon Grove Camp Fire and Blue Bird leaders wish to publicly thank Mrs. John A. Van Gilse for the fine work she did as leader of the Happy Hour Blue Bird group this past year and a half. She did a very efficient job and it will be difficult to fill her place.

Several mothers have been helping as group leaders this past month. The first of February a new leader is starting in the group, Mrs. J. E. Fernald, who will be assisted by three mothers, Mrs. Nellie Selenick, Mrs. Naomi Fauchit and Mrs. Helen Brook.

The Sunkist group under Mrs. Lee and Mrs. Orcutt are having fun acting out the Fairy Tale of Cinderella. This week they are making their costumes. They plan to entertain their mothers at a tea in the near future.

The Monterey Heights Blue Birds will meet in the Congregational Church on Mondays after school, as their former leader, Mrs. Virginia Thirkell, will be leaving soon for Guam.

The O-Ken-Ya-Sen group was shown through the Lemon Grove Pastry Shop on Monday and saw many things to interest them.

Mrs. Myra Sonka has returned as a co-leader to Mrs. Joan Dunford's Camp Fire group. Mrs. Sonka is well known as a dancing instructor and will help to bring dancing into the program.

The Monterey Heights Camp Fire group under the leadership of Mrs. Helen Nelson welcomed Jean Vincen and Janice Sunbury to their group. They plan to go ice skating Saturday.

Mrs. Porter, Mrs. Young and Mr. Henderson represented the

ever we still hope to see more faces and more good times.

As a reminder Cubs don't forget to notify your Den Mothers if you and the folks want to visit the Naval Training Center to view the parade February 5. Also any parents desiring to attend the District dinner on the evening of February 3, please contact your boy's Den Mother or any committeeman.

THE STRONG ONION

To garden patch I went along,
To see what made the onion strong.

For I had heard them say,
When I was sick and cried for meat,
That I'd grow strong, if I would eat

My spinach every day.
I found the rows of spinach ploughed,
And onions grew there tall and proud,
While I had been in bed.

ROADS BLOCKED

Due to the storm Monday night the roads were blocked at Alpine, forcing Mr. and Mrs. Ted Haaf and Mr. and Mrs. R. E. Issott to cancel their trip to Blythe, where the ladies planned

With spinach mixed in all around,
Can onions find it in the ground?
And how are onions fed?

Incidents Bring Accidents

by Dr. Frank Weege, D. C.

Many fantastic stories have been transmitted from one generation to another. Some of them were outright fables while others were based on mere superstition and a great majority found credulity on wrongly conducted 'scientific' tests.

How misleading and dangerous such untruths are, we endeavor to show in the following article. Headline: 'FATHER DIES; MOTHER AND TWO CHILDREN IN SERIOUS CONDITION FROM MUSHROOM POISONING'.

After raining for several days, the skies cleared and the sun sent its warm rays to every part of the countryside. Ernest Moyer and his wife, Clara, decided to give the children a treat by taking them to the back-country for a Sunday outing. While Ernest got the car ready, his wife prepared some lunch to be taken along. Betty and Stanley, their two children, were dressed for the occasion. After they left the crowded city streets, Moyer found himself on a wonderful highway, and though there was very little traffic, he still ached for more room. So at the first chance, he turned onto a decomposed granite road and for once, really enjoyed driving his car. The motor hummed nicely, the sun was on his back, and the whole family enjoyed the trip immensely. The scenery was beautiful, green pastures with wild flowers to the right and to the left. Herds of cows were grazing contentedly. After a jaunt of about two hours, they arrived at a beautiful meadow where they decided to stop for lunch.

While mother unpacked the basket and got things ready, daddy and the children strolled around in the green herbage. Momentarily, Stanley spotted some mushrooms and told his dad about it. Dad informed him not to touch them until he had investigated. Yes, they looked like honest-to-goodness eatable mushrooms. Believing a fable, told him by his parents, Ernest tasted

Book Section Holds Meeting

one of the mushrooms, and since it had a pleasant taste, was sure it was non-poisonous. So they gathered enough to make a meal.

After coming home late that afternoon, Clara Moyer, in order to play safe, made another test by bringing the broken surface of one of the mushrooms in contact with a silver dish. Since it did not blacken the silver, she, too, believed them to be safe, and prepared them for dinner. The mother and children ate sparingly of the dish, but Ernest took a second helping. About six hours later, the children complained of stomach aches; there was diarrhea and vomiting. A doctor, who was called at once, made a diagnosis of fungi poisoning and ordered the youngsters to the hospital. About two hours later, Clara Moyer noticed similar symptoms and before the doctor could arrive Ernest had a terrific vomiting spell. Both parents were taken to the hospital and though everything possible was done, including washing the stomachs with a one per cent saline solution, the father passed away four hours after arriving at the hospital. At the time of his death the rest of the family was in a serious condition, but the doctors believed that they would pull through.

Investigation showed that Ernest Moyer had gathered some of the most poisonous fungi, known as Death Cups, (Amanita phalloides) of which just part of a single specimen may be fatal.

HOUSE GUESTS

Mr. and Mrs. F. E. O'Connor of Golden Avenue had as house guests last week her aunt and uncle, Mr. and Mrs. W. Adams, of Newport, Minnesota.

Contrary to scientific reports their toxins do not blacken silver. They are pleasant to the taste, and they are not rendered harmless by cooking or digestive processes.

Among other poisonous substances, they contain a most harmful phenol derivative popularly known as carbolic acid, which is resistant to heat, drying, and digestive juices. Recovery is more likely when violent diarrhea and vomiting begin soon after ingestion of the mushrooms than when emesis is delayed.

Believing in fables is bad enough by itself but when life depends on such worthless stories, it is too high a price to pay to tickle one's throat for just a few minutes.

And now as to the moral of the story:

When picking mushrooms you must know

Which kind to gather for your table;

Since good ones with the bad ones grow

Without a sign of safety label.

When you're in doubt in your belief

Remember that a tiny swallow Of poisonous mushrooms bring you grief,

With sickness, even death to follow.

PUT A SPACE HERES

Had Ernest used his sense and wit

Not trusting in a worthless fable, Had he restrained his greed a bit

Of tasting mushrooms at his table He would be still alive today;

Without his family's great prostration.

It was too dear a price to pay For palate's selfish titillation.

RECIPE OF THE WEEK

The "Recipe of the Week" is furnished each week through the courtesy of the Shopping Center.

Make elegant treats from any easy recipe. Take this nut bread. No frills to it. But with sweet crisp Diamond Walnuts — it's good as cake!

WALNUT-ORANGE LOAF
3 cups sifted flour.
4 tps. baking powder.
1 tsp. salt.
1 cup chopped Diamond Walnuts.
1 egg, beaten.
1 cup milk.
2 tbsps. melted shortening.
¾ cup brown sugar.
½ cup orange marmalade.

Sift flour, baking powder and salt into mixing bowl. Add walnuts. Mix egg with remaining ingredients. Add to flour and beat well. Pour into greased 9x3x3-in. pan, let stand 20 minutes. Bake in moderate oven (350°F.) 65-70 minutes, or till done. Cool on rack.

SNOWDRIFT FUDGE CAKE

Quick-method recipes like this need emulsorized shortening. The New Snowdrift is emulsorized for perfect blendability.

Sift together in a large bowl:
2 cups sifted cake flour.
¾ teaspoon soda.
1 teaspoon salt.
1½ cups sugar.
Add:
¾ cup Snowdrift (Emulsorized gives blending aid.)
¾ cup milk.

Mix until flour is dampened. Beat 2 minutes. If you beat by hand and take "rests," count beating time only. (If you use electric mixer, set at "low speed" and scrape bowl and beaters frequently.)

Add:
¾ cup milk.
1 teaspoon vanilla.
2 eggs.
3 squares unsweetened chocolate melted and cooled.

Beat 1 minute. Turn into two ungreased 9 inch layer cake pans, with bottoms lined with thin paper. Bake in moderate oven (375°) about 25 minutes. Cool on racks 5 minutes; turn out of pans, invert and cool. Put together and ice with your favorite chocolate icing and decorate with pecan halves.
